NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, SEPTEMBER 30, 2017

NOTE 1- ORGANIZATION AND LINE OF BUSINESS

Organization and Basis of Presentation:

The accompanying unaudited interim condensed consolidated financial statements of Advanced Oxygen Technologies, Inc. (“Group” or the “Company”) have been prepared by management in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all information and footnotes required by generally accepted accounting principles for annual audited financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included.

The results of operations for the three months ended September 30, 2017 are not necessarily indicative of the results to be expected for the year ending June 30, 2018. The accompanying unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes related thereto for the years ended June 30, 2017 and 2016 included in Form 10-K filed with the SEC.

Lines of Business:

The Company, through its wholly owned subsidiary Anton Nielsen Vojens ApS owns income producing commercial real estate leased until 2026. The real estate consists solely of the land with no buildings or improvements (“Land”). All improvements on the Land are those of the tenant.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Revenue recognition of rental income:

Revenues are recognized during the period in which the rental payment is received. The Company applies the provisions of FASB Accounting Standards Codification ('ASC') 605-10. Revenue Recognition in Financial Statements ASC 605-10, which provides guidance on recognition, presentation, and disclosure of revenues in financial statements filed with the SEC.

The Company's source of revenue is from a commercial property lease in which quarterly payments are received pursuant to the property lease which is in effect until 2026.

[Return to Table of Contents](#)

Property Plant and Equipment:

Land and buildings are recognized at cost. Land is carried at cost less accumulated impairment losses.

Foreign currency translation:

Foreign currency transactions are translated applying the current rate method. Assets and liabilities are translated at current rates. Stockholders' equity accounts are translated at the appropriate historical rates and revenue and expenses are translated at weighted average rates for the year. Exchange rate differences that arise between the rate at the transaction date and the one in effect at the payment date, or at the balance sheet date, are recognized in the income statement.

Income Taxes:

The Company accounts for income taxes under the asset and liability method of accounting. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is required when it is less likely than not that the Company will be able to realize all or a portion of its deferred tax assets. Because it is doubtful that the net operating losses of recent years will ever be used, a valuation allowance has been recognized equal to the tax benefit of net operating losses generated.

Net Earnings per Share:

Basic earnings per share is computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. As of September 30, 2017 and September 30, 2016 there were 10,000 and 10,000 potential dilutive shares that need to be considered as common share equivalents and because of the net loss, the effect of these potential common shares is anti-dilutive for September 30, 2017.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Company considers all highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

The Company maintains its cash in bank deposit accounts which, at September 30, 2017 did not exceed federally insured limits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risk on such amounts.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to major credit risk consist principally of a single subsidiary of Anton Nielsen Vojens ApS.

Recently Issued Accounting Standards:

In September 2017, FASB issued ASU No. 2017-01 – Business Combinations (Topic 805): Clarifying the Definition of a Business. The issuance is to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether

transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, and consolidation. It is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. We do not expect that the adoption of ASU 2017-02 will have any impact on our consolidated financial statements.

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 completes the joint effort by the FASB and International Accounting Standards Board (IASB) to improve financial reporting by creating common revenue recognition guidance for GAAP and International Financial Reporting Standards (IFRS). Subsequently, the FASB has issued several additional ASUs to clarify the implementation. The new revenue standard applies to all companies that enter into contracts with customers to transfer goods or services and is effective for public entities for interim and annual reporting periods beginning after December 15, 2017. We will adopt the new revenue standard effective January 1, 2018. Entities have the choice to apply the new revenue standard either retrospectively to each reporting period presented or by recognizing the cumulative effect of applying the new revenue standard at the date of initial application and not adjusting comparative information. We expect to adopt the new revenue standard using the cumulative effect transition method.

In May 2017, the FASB issued ASU 2017-09, "Stock Compensation (Topic 718): Scope of Modification Accounting." ASU 2017-09 provides clarity and reduces complexity in applying the guidance in Topic 718 to a change to the terms or conditions of a share-based payment award. The new standard will be effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. The Company is in the process of evaluating the impact of this new guidance.

In February 2016, the FASB issued ASU No. 2016-02 - Leases (Topic 842), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either financing or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The standard is effective on January 1, 2019, however early adoption is permitted. The Company is in the process of evaluating the impact of this new guidance.

In February 2015, the FASB issued Accounting Standards Update No. 2015-02 (ASU 2015-02) "Consolidation (Topic 810): Amendments to the Consolidation Analysis." ASU 2015-02 changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. It is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. We do not anticipate that the adoption of ASU 2015-02 will have any impact on our consolidated financial statements.

Other recent accounting pronouncements issued by the FASB did not or are not believed by management to have a material impact on the Company's present or future financial statements.

NOTE 3 - MAJOR CUSTOMER:

The Company's subsidiary, Anton Nielsen Vojens, ApS has sales to major customers who were non related parties. For the period ending September 30, 2017, and September 30, 2016 the major customer concentrations were as follows:

The amounts stated in this note reflect the Company's commitments in the currencies that those commitments were made and the amounts are an estimate of what the US dollar amount would be if the currency rates did not change going forward.

NOTE 7 - SHAREHOLDERS' EQUITY:

Common Stock:

Pursuant to a Certificate of Amendment to our Certificate of Incorporation filed with the State of Delaware and effective as of December 8, 2014, the Company effected a reverse stock split of all the outstanding shares of our common stock at an exchange ratio of one for twenty (1:20) and changed the number our authorized shares of common stock, par value \$0.01 per share, from 90,000,000 to 60,000,000 while maintaining the number of authorized shares of preferred stock, par value \$0.01 per share, at 10,000,000. As a result, the 45,853,585 shares of common stock outstanding at December 7, 2014 had been reduced to 2,292,945 shares of common stock (taking into account the rounding up of fractional share interests).

[Return to Table of Contents](#)

Preferred Stock:

The Company is authorized to issue 10,000,000 shares of \$0.01 par value preferred stock. The Company may issue any class of preferred shares in series. The board of directors has the authority to establish and designate series and to fix the number of shares included in each such series.

Series 2 Convertible Preferred Stock:

Each Series 2 preferred share is convertible into two shares of common stock at the option of the holder. Each Series 2 preferred share also includes one warrant to purchase two common shares for \$5.00. The warrants are exercisable over a three-year period. In the event of the liquidation of the Company, holders of Series 2 preferred stock would be entitled to receive \$5.00 per share, plus any unpaid dividends declared on the Series 2 preferred stock from the funds remaining after the Company's creditors, including directors, have been paid. There have been no dividends declared. During November 1997, 172,000 shares of Series 2 preferred stock were converted into 344,000 shares of the Company's common stock. As of September 30, 2017, there were 5,000 shares issued, which are convertible into 2 common shares. There are no warrants outstanding that have been issued in connection with the preferred shares.

RESULTS OF OPERATIONS FOR THE THREE MONTH PERIOD ENDING SEPTEMBER 30, 2017 COMPARED TO 2016:

Revenues: Revenues from operations for the three month period ending September 30, 2017 and September 30, 2016 were \$9,704 and \$9,149 respectively. They were attributable to operations of the Company's wholly owned subsidiary Anton Nielsen Vojens. The fluctuation was due to currency fluctuations.

Selling, general and administrative expenses: G&A expenses for the three month period ending September 30, 2017 and September 30, 2016 were \$1,234 and \$2,062 respectively. The expenses are attributable to ANV's operations.

Interest expense: Interest expense for the three month period ending September 30, 2017 and September 30, 2016 was \$1,690 and \$1,010 respectively. Interest expenses for 2016 are lower primarily due to the currency fluctuations and the reduction of debt.

Net income (loss) attributed to common stockholders: Net income (loss) attributed to common stockholders was \$(3,122) or \$(0.0014) per share for the three month period ending September 30, 2017 as compared to \$1,913 or \$0.0008 per share for September 30, 2016 and mainly attributable to the Company's auditors and currency fluctuations.

Liquidity and capital resources: At September 30, 2017 and June 30, 2017, the Company had cash and cash equivalents of \$46,107 and \$50,331 respectively. At September 30, 2017 and June 30, 2017, the Company had a working capital deficit of \$238,721 and \$230,605 respectively. The change in cash is primarily associated with currency fluctuations, and the decrease in the working capital deficit is primarily due to payment of debt and normal operations.

Net cash provided from (used for) operating activities for three month period ending September 30, 2017 and September 30, 2016 was \$5,183 and \$3,423, respectively. The net cash used by operating activities was primarily due to the operations of ANV, the payment of ANV taxes and expenses paid for on behalf of a related party.

Net cash provided from (used for) financing activities for three months period ending September 30, 2017 and September 30, 2016 was \$(11,100) and \$(5,377) respectively. Net cash provided from or used for financing activities for both periods is related to the company's borrowings from banks, officers and directors, and the repayment of debt.

ACQUISITION EFFORTS:

The Company continues its efforts to raise capital to support operations and growth, and is actively searching acquisition or merger with another company that would complement AOXY or increase its earnings potential. During this period, the Company has been in discussion with Companies looking to be acquired. AOXY has not negotiated any terms nor proposed any acquisitions of any of these companies that have been accepted. In addition, the Company is in discussion with potential lending institutions to assist in financing any proposed acquisition. The Company expects difficulty in financing the growth of the increased business or acquisition and has been concentrating on raising capital and/or obtaining a line of credit.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk:

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer who is also our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Acting Chief Financial Officer concluded as of September 30, 2017 that our disclosure controls and procedures were not effective at ensuring that the material information required to be disclosed in the Exchange Act reports is recorded, processed, summarized and reported as required in applicable SEC rules and forms.

During the three month period ended September 30, 2017, there were no changes in our internal control over financial reporting identified in connection with management’s evaluation of the effectiveness of our internal control over the financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.
